Professional Summary

Full Stack Web Developer with hands-on experience building scalable business applications, CRM systems, admin dashboards, e-commerce platforms, and property management solutions. Experienced in frontend and backend development using React.js, Nest.js, PostgreSQL, Prisma, and modern deployment workflows.

Worked on real-world production systems including multi-role platforms, real-time applications, internal management systems, and customer-facing web applications. Strong understanding of AI-assisted development workflows using ChatGPT, Claude, Gemini, and modern AI coding assistants for debugging, optimization, and productivity enhancement.

Technical Skills

Frontend	React.js, TypeScript, JavaScript, Redux Toolkit, TailwindCSS, HTML5, CSS3, Bootstrap
Backend	Nest.js, Node.js, Express.js, REST APIs, Socket.IO, PHP (Working Familiarity), Laravel (Working Familiarity)
Database & ORM	PostgreSQL, Prisma ORM, Drizzle ORM, MongoDB, SQL
CMS & Web	WordPress Customization, WooCommerce, Elementor
DevOps	DigitalOcean, AWS, Nginx, Linux Server Management, Git & GitHub
AI Tools	ChatGPT, Claude, Gemini, AI-assisted development workflows

Professional Experience

Loud IMC — Full Stack Developer
Kozhikode, India | September 2025 – Present

- Backend development using Nest.js and PostgreSQL
- React.js frontend implementation and admin dashboard development
- Deployment and server management using DigitalOcean and Linux environments
- REST API integrations and scalable backend architecture implementation

Key Projects

Bizzatom CRM & Admin Dashboard

Developed and maintained a CRM-enabled admin dashboard for a loyalty point mobile application platform. Built the admin dashboard from scratch and continued existing production workflows using React.js, Nest.js, PostgreSQL, and

Drizzle ORM.

Leewaa Internal Staff Management System

Developed a complete internal staff management platform from scratch to deployment using React.js, Nest.js, PostgreSQL, and Prisma ORM.

Leewaa E-Commerce Platform

Built a full-stack e-commerce platform with customer-facing storefront and complete admin management system. Integrated Razorpay payments and real-time communication using Socket.IO.

RouteGuide Property Booking Platform

Worked on a multi-platform property booking ecosystem including public booking portal, property management dashboard, channel partner portal, and centralized admin system.

Alletre Auction Platform — MERN Stack Developer

Ras Al Khaimah, UAE | June 2024 – June 2025

Worked on a UAE-based online auction platform focused on real-time bidding and secure transaction workflows. Developed frontend and backend modules, implemented real-time communication using Socket.IO, and integrated Stripe payment systems.

Brototype — MERN Stack Trainee

Kerala, India | 2023 – 2024

Completed intensive MERN stack training focused on full-stack application development, clean architecture, APIs, authentication systems, and deployment workflows.
